**HELLER INDUSTRIES NAMES EDUARDO GONZALES
SERVICE ENGINEER FOR MEXICO**

FLORHAM PARK, NJ - Heller Industries announces the appointment of Eduardo Gonzalez to the position of Service Engineer for Mexico. He has responsibility for the service of Heller's full line of reflow and curing ovens in all Mexican locations.

Gonzalez' appointment represents a response to the growth of Heller's installed customer base in Mexico.

Prior to joining Heller Industries, Inc., Gonzales was employed as a SMT Process Engineering for Lucent Technologies in Guadalajara, Mexico. He has over 6 years experience in subcontract manufacturing, product management and customer relations. Gonzalez attended Iteso (Profesional Instituto Tecnologico de Estudios Superiores De Occident) and graduated with a Bachelor of Science.

Heller Industries is a market leader in sales, engineering, and support for both standard and special ovens. As pioneers in convection oven technology, Heller supplies solutions for SMT reflow and curing applications to electronic manufacturers and assemblers worldwide.

For more information, contact Heller Industries at 4 Vreeland Road, Florham Park NJ 07932 USA; Tel: (973) 377-6800, Fax: (973) 377-3862; www.hellerindustries.com.
