**HELLER INDUSTRIES NAMES PHILLIP DILL
SERVICE ENGINEER FOR TEXAS**

FLORHAM PARK, NJ - Heller Industries announces the appointment of Phillip Dill to the position of Service Engineer for Texas. He has responsibility for the service of Heller's full line of reflow and curing ovens in Texas.

Dill's appointment represents a response to the growth of Heller's installed customer base in Texas.

Prior to joining Heller Industries, Inc., Dill was employed as Technical Support Specialist for AT&T Wireless in Texas. He has over 19 years experience in subcontract manufacturing, product management and customer relations. Dill attended the College of the Air Force, graduating with an Associate of Science in Electronic Engineering Technology.

Heller Industries is a market leader in sales, engineering, and support for both standard and special ovens. As pioneers in convection oven technology, Heller supplies solutions for SMT reflow and curing applications to electronic manufacturers and assemblers worldwide.

For more information, contact Heller Industries at 4 Vreeland Road, Florham Park NJ 07932 USA; Tel: (973) 377-6800, Fax: (973) 377-3862; www.hellerindustries.com.
